

# In Our Haunted House

Andrew Gold

(Woah! Oh man, I'm all wet, man! Look at this place! Over here! Over here! I wanna go! Oh my... No way I'm goin' in there! I don't get it, just open it! Let's go in! C'mon! Okay, okay, okay... WOAHA! Look at this place, man, it's cool! How'd ya like that they... It's like a haunted house! Hey! Where ya goin'? Uh-oh...)Mwahahahahaha! Welcome, boys... Come right in.

(screaming)

Please come in, you're welcome here

Mind the cobwebs and the bones

May we invite you to spend the night?

Make yourself at home

Step this way, here's the living room

(Though "dead" room is more correct)

'Cause there hasn't been a living soul here

Since grandpa broke his neckIn our haunted house

We'll treat you like one of us

But in our haunted house

That could be hazardousBrowse around the kitchen,

Have a spoon or a knife (?)

You must excuse those "ketchup" stains...

We ate someone last night

Here is your big bedroom, dears

(You'll love the creaky bed!)

You'll sleep just fine, but when you wake

You still may feel half deadIn our haunted house

The mother is a ghost

The upstairs maid's been buried for years

And the chauffeur's comatose!In our haunted house

Our hospitality is something of which we're very proud

(Oh! Do you take poison in your tea?)Don't let the spider webs mess up your hair

Don't mind the piano playing with no one there

The crumbling bookshelves covered with dust

One or two headless bodies, what's all the fuss?The dreadful pounding, the screams and moans

It's just a typical night at home...(In our haunted house! Things come through the walls!

You might see sights that chill the soul! Be sure to wear a shawl!)(We'd love you! Do come in! Stay a while and play...)

(Once you finally settle in, you'll never go away!)(We'll make sure of that...)(evil laughter)In our haunted house (screams)

In our haunted house

In our haunted house...

In our haunted house...

In our haunted house...  
Our haunted house...  
In our haunted house...  
(fades out)
