

Wild About You Baby

Joe Bonamassa

Well I'm wild about you Baby
And you just don't treat me right
Yes I'm wild about you darling
And you just wont treat me right
Leave home early in the moring
And you saty out all night Yes you leave me baby and you say away all night long
Yes you leave me darling
And you stay away all night long Keep me weare and crying now baby
And I hope you come back home Yes you leave me baby and you know you done me wrong
Yes you leave me baby and I know you done me wrong I turn over on my pillow and I hope you come back
home Yea good bye now baby
I Hope I never see you know more Yea good night my baby
Hope I never see you know more
You start doing me wrong now child
Just like the girl I had befor Yea lission to me baby
As I hold up my right hand
Yea lission to me baby
As I hold up my right hand
Gonna get me cupple women
And I hope you find a man
