

I Buried Your Love Alive

[Ashley Monroe](#)

Woke up this morning in a cold, cold sweat
Heart broken beating outta my chest
Cried out your name against my will
A memory I can't kill I buried your love alive
I buried your love alive
I buried your love alive Deep inside me there's a shallow grave
It haunts me everyday
Yeah, I buried your love alive Gettin' tired and I don't wanna deal
You left me holding too damn much to feel
So I, I found the bottle, drank some booze
I did what I had to do Yeah, I buried your love alive
I buried your love alive
I buried your love alive Drives me crazy and it makes me cry
Wish I could make it die
I buried your love alive
Yes, I did I got what I wanted, I guess
I confess I did not want to let you go So I buried your love alive
I buried your love alive
Oh no, oh I buried your love alive
Oh no, I buried your love alive
Oh no, I buried your love alive Woke up this morning in a cold, cold sweat
Heart broken beating outta my chest
Cried out your name against my will
A memory I can't kill
