

I Won (feat. Kanye West) (Prod. By Metro Boomin)

Future

I just want to take you out and show you off
You already know that you the perfect one
Girl when I'm with you, feel like a champion
Ever since I got with you I feel like I done won me a trophy
A trophy, I won me a trophy
I won, I won, I won
A trophy
I just want to take you out and show you off
You already know that you the perfect one
Girl when I'm with you, feel like a champion
Ever since I got with you I feel like I done won me a trophy
Trophy, I won me a trophy
A trophy, I won me a trophy
Trophy, I won me a trophy
A trophy
Get to fucking on the dresser just to make that pussy wetter
Gotta put you in that vintage then you rocking Perry Ellis
Then I leave with you, only cause I believe in you
We get to banging on the walls just to piss the neighbors off
You and them twelve foot ceilings I just painted the halls so I can breathe with you
So I can breathe with you
I want to live my dream with you
You say that money don't matter it's times and the memories
And now that ass getting fatter and I know it's because of me
I know it's because of me
I know it's because of me, got you in custody
Whoever knocking at the door, they gotta wait til we finished
I know I started at the bottom but that not ain't where ending
I just want to take you out and show you off
You already know that you the perfect one
Girl when I'm with you, feel like a champion
Ever since I got with you I feel like I done won me a trophy
A trophy, I won me a trophy
I won, I won, I won
A trophy
I just want to take you out and show you off
You already know that you the perfect one
Girl when I'm with you, feel like a champion
Ever since I got with you I feel like I done won me a trophy

Trophy, I won me a trophy
A trophy, I won me a trophy
Trophy, I won me a trophy
A trophy You the number one trophy wife
So it's only right to live the trophy life
You grew up on J. Lo, Timberlands by Manolo now
Till one day I put an angel in your ultra sound
I want to dip that ass in gold, I want to dip that ass in gold
I made it over NBA, NFL players
So every time I score it's like I won the Super Bowl
Baby, we should hit the south of France
So you could run around without them pants
I put that glacier on your little hand
Now that's the only thing without a tan
My trophy on that Bound bike, I gave you only pipe
If people don't hate then it won't be right
You could look at Kylie, Kendall, Kourtney and Khloe
All your Mama ever made was trophies, right? I just want to take you out and show you off
You already know that you the perfect one
Girl when I'm with you, feel like a champion
Ever since I got with you I feel like I done won me a trophy
A trophy, I won me a trophy
I won, I won, I won
A trophy
I just want to take you out and show you off
You already know that you the perfect one
Girl when I'm with you, feel like a champion
Ever since I got with you I feel like I done won me a trophy
Trophy, I won me a trophy
A trophy, I won me a trophy
Trophy, I won me a trophy
A trophy
