We Are Forever

Catch me I'm falling down
cause we're falling out
this is the time for us
there's no time to discuss
we shouldn't wait no more
girl my heart's at war
I'm not gonna lie

I could never say goodbyeso count down here's to the memories
jump up and reach for the skyline
you know as well as I that we could fly
x2Spin we around again
now we're in like sin
raise your glass up high
here's to every night
we shouldn't wait no more
girl my heart's at war
I'm not gonna lie

I could never say goodbyeso count down here's to the memories
jump up and reach for the skyline
you know as well as I that we could fly
x2Don't you break my heart
I cant feel it beat
I can feel it when you look at me
x3so count down here's to the memories
jump up and reach for the skyline
you know as well as I that we could fly
x3
