

# Pray Out Loud

## Jessica Simpson

When you're down  
Don't be afraid to pray out loud  
Just close your eyes and let it out  
Take all your fears and doubts  
He's listening right now  
Don't be afraid to pray out loud, pray out loudEverybody's got their problems  
Everybody's got their struggles  
We all need a helping hand  
Sometimes, sometimesAnd I think back to when  
I was a little girl, my daddy said  
Remember just when  
You're through this worldWhen you're down  
Don't be afraid to pray out loud  
Just close your eyes and let it out  
Take all your fears and doubts  
He's listening right now  
Don't be afraid to pray out loudDon't have to face it on your own  
We don't have to be alone  
Just open up your arms  
And look up at the sky and pray out loudWhen you're down  
Don't be afraid to pray out loud  
Just close your eyes and let it out  
All your fears and doubts  
He's listening right nowOh, when you're down  
Don't be afraid to pray out loud  
Just close your eyes and let it out  
All your fears and doubts  
He's listening right now  
Don't be afraid to pray out loudPray out loud  
Pray out loud  
Don't be afraid to pray out loud
