

New World Order

AYER

Stardust suppliers
We are galaxy collidersBackwards, forwards
Living in a new world orderIlluminate from inside with a purple heart
a million miles away
Rising seas of smoke rings lift you up
until you're interstellar flyingStardust suppliers
We are galaxy collidersBackwards, forwards
Living in a new world orderA masterpiece of holograms
like clockwork now unfreeze
Crystal waters quench your thirst and now
Your body is your releaseStardust suppliers
We are galaxy collidersBackwards, forwards
Living in a new world order
