

# Traffic

## Ned's Atomic Dustbin

Don't make me drive, shrink the world and wrap it  
That's where I shat it, lost in all the traffic  
Rule by my thumb, hear it deaf, say it dumb  
It leads me, leads me I wanted to try, must have got too tired  
I wanted to, want to be kind, just had no time  
Now I've taken more than a reasonable quota  
Not that I owe you, not that I owe you Blame everyone, we are sick to succumb  
And it grieves me, grieves me Don't make me drive, shrink wrap the planet  
That's where I shat it, lost in all the traffic  
Rule by my thumb, hear it deaf, say it dumb  
It leads me, leads me
