

# Bright Lights and Country Music

**Bill Anderson**

I love those bright lights and country music  
I won't stay home and cry tonight like all the nights before  
I've just learned that I don't really need you anymore  
I found a little place downtown where guys like me can go  
And they've got bright lights and country music  
Bright lights and country music, a bottle and a glass  
Soon I'll be forgetting that there ever was a past  
And when everybody ask me what helped me forget so fast  
I'll say, "Bright lights and country music"  
A table by the bandstand, a bottle filled with wine  
Honky tonks were made for men with women on their minds  
Nothing else can take away this loneliness of mine  
Quite like bright lights and country music  
Bright lights and country music, a bottle and a glass  
Soon I'll be forgetting that there ever was a past  
And when everybody ask me what helped me forget so fast  
I'll say, "Bright lights and country music"  
Cause I love those bright lights and country music
