

Hotblack

Oceanship

Took a big trip
With your old band
To your homeland
For the wrong man

Making big plans
For your own sake
Hope they donâ€™t bend
Hope they donâ€™t break

Took a tip from a rodeo show
Get a grip or youâ€™re gonna get thrown
Take your aim when you take a shot
For the man under you will take everything you got

Take the pills that they give you mornings
Spit them out when they arenâ€™t looking
Keep a smile but you burn it hot
Itâ€™s a mad, mad, world

Take the pills that they give you mornings
Spit them out when they arenâ€™t looking
Fix a smile but you burn it hot
Itâ€™s a mad, mad, world
