

We've Got This Hope (Instrumental)

[Ellie Holcomb](#)

We've got this hope
We've got a future
We've got the power of the resurrection living within
We've got this hope
We got a promise
That we are held up and protected in the palm of His hand And even when our hearts are breaking
Even when our souls are shaking
Oh, we've got this hope
Even when the tears are falling
Even when the night is calling
Oh, we've got this hope
And we're not alone
Our God is with us
We can approach the throne with confidence
Cause He made a way
When troubles comes
He'll be our fortress
We know that those who place their hope in Him will not be ashamed And even when our hearts are breaking
Even when our souls are shaking
Oh, we've got this hope
Even when the tears are falling
Even when the night is calling
Oh, we've got this hope Our hope is grounded in an empty grave
Our hope is founded on the promise that He made
Even when our hearts are breaking
Even when our souls are shaking
Oh, we've got this hope
Even when the tears are falling
Even when the night is calling
Oh, we've got this hope
Oh, we've got this hope
