

One

Maxine

The lights are flashin flashin
My drink is splashin splashin
Were making it happen happen
I can't stop stop dancing Oh I feel alive
I got you on my mind
Meet me on the dance floor
I tell the DJ to give them what they ask for Play that track make it scratch bring it back drop that bass
Then push it push it baby Your eyes are flashin flashin
My drink is splashin splashin
Were making it happen happen
I can't stop stop dancing Oh I feel alive
I got you on my mind
Meet me on the dance floor
I tell the DJ to give them what they ask for Play that track make it scratch bring it back drop that bass
Then push it push it baby You can be the one tonight
What's your idea of fun tonight DJ play that track one time
