

# Maggie My Dear

Tim Christensen

Maggie my dear

Maggie my dear  
Wish you were here  
'Cause I have got something to tell you tonight  
I know by the stars  
That you can't be far away

Maggie my pride  
Where do you hide  
I don't I know the answer to that  
I'll treasure the moon  
If you'll be back soon with me

Maggie my dear  
Is it me that you fear  
What's going on in your mind  
Maggie my pride  
You can no longer hide  
I need to know

Maggie my love  
I've had enough  
Of chasing the dream of you being with me  
I'll follow the sun  
If you're not the one for me

Maggie my dear  
Is it me that you fear  
What's going on in your mind  
Maggie my pride  
You can no longer hide  
I need to know

No you don't have to go

Maggie my dear  
Is it me that you fear  
What's going on in your mind

Maggie my pride  
You can no longer hide  
I need to know

Maggie my love  
Are you hungry enough  
To ease my mind
