Face First

Down to Earth Approach

The cards you've read are true again
And I can feel your heart
The saddest song can't bring me back tonight
Turn up the radio
I was standing
I was looking back
Letting my mind slip on my own feet
Like lightning
But you give away everything you take
And it falls on me
Just turn your head away
Trust in me with everything
You left yourself wide open
Does it spin inside your head
The saddest song can't bring me back tonight
Turn up the radio
