# Disorder

## Chiasm

Time enters space
Now is erased
Drugs rape the mind
Kills all you find

In a world of disorder I lie awake
Knowing there's nothing I can do
In a world of disorder I lie awake
Knowing there's something I can do

Take what you love
Prey from above
Cry as you heal
Smile as they kneel

In a world of disorder I lie awake
Knowing there's nothing I can do
In a world of disorder I lie awake
Knowing there's something I can do

Run from the fate
Curse as they wait
Fly as you're still
Play at your will
