

Aquarium

Mac Miller

[Intro]

Yeah

Do you feel it?

Don't answer, that was a rhetorical question

Rhetorical (rhetorical)[Verse 1]

Forever life but never nice, we expedite the process

And every night I get advice, cause life is way too complex

Heaven's lights are hella bright, ironic how that came to be

But can't you see? This angel speaks

She's sayin a place is safe for me

I told her "wait for me," make believer normally disguised

Transforms before your eyes and glorifies euphoric highs

The morning rises and I'm fast asleep

Somewhere off in the master suite

Having dreams of Latin queens and nasty freaks

My mind, it wonders to places yonder and even farther

When I'm sleep walking I'm Steven Jobs or I'm Peter Parker

A genius author, a Jesus preaching just to feed his daughter

The weed to spark up, yeah he's a goner, f these primadonnas

I always wonder what happened 3000 years ago

I like to toy with the idea that we really know

Its what I do important in the grand scheme of things?

In my head these dreams are dreamt, trust me we are kings[Hook]

I'm wearing a blindfold, like where did the time go

I know you hear me out there, give me a sign though

I'ma follow you wherever your mind goes

Baby I'ma follow you wherever your mind goes

Take me away girl, somewhere they won't be

Hold you closely, look at me, don't speak

Do you follow me wherever my mind goes?

So do you follow me wherever my mind goes?[Verse 2]

I'm just trying to make it all make sense

As you hypothesize on how to monetize and take advantage of

All the time we fall behind, get lost in this Aquarium

America, the standard of vanity when the camera's up

We become celebrities, distract from the hysteria

Confessions that I have and curiosity about life and death

Most of us will never understand it, we just like the quest

Read about the meanings of dreaming and all its messages

Sedatives that take me to God, witness his fetishes
We all in search for substance, that drugs for pain and numbness
Circumstances advance in the second chance for dis-beloved
Wish I could tell you that I didn't see this coming
But I'm ready for it all to end, die before tomorrow's trend
Your life, it all depends on dollars spent and knowledge gained
Thoughtless on the brain, lost inside, forgotten days
Life, it works in such mysterious ways
All these years that I pray, hope you hear what I say[Hook]
I'm wearing a blindfold, like where did the time go
I know you hear me out there, give me a sign though
I'ma follow you wherever your mind goes
Baby I'ma follow you wherever your mind goes
Take me away girl, somewhere they won't be
Hold you closely, look at me, don't speak
Do you follow me wherever my mind goes?
So do you follow me wherever my mind goes?[Outro]
Wherever my mind goes
I'ma follow you wherever your mind goes
Wherever your mind goes
Do you follow me wherever my mind goes?
I'ma follow you wherever your mind goes
I'ma follow you wherever your mind goes
Do you follow me wherever my mind goes?
Do you follow me wherever my mind goes?
I'ma follow you wherever your mind goes
I'ma follow you wherever your mind goes
Do you follow me wherever my mind goes?
Do you follow me wherever my mind goes?
