

# Cupid

Sara Evans

Tell Cupid not to point that thing at me  
One more hole in my poor heart is just what I don't need  
I've been teased by a fate, burned by love and left by destiny  
So for my hearts sake tell Cupid wait, don't point that thing at me  
A boy and girl that's where it starts  
And then, oh Cupid, well, he goes right for the heart  
Yeah, I've been hit a time or two  
But what got me turned out to be just passing through  
So tell Cupid not to point that thing at me  
One more hole in my poor heart is just what I don't need  
Well, I've been teased by a fate, burned by a love and left by destiny  
So for my hearts sake tell Cupid, wait, don't point that thing at me, alright  
True love I saw and finally found  
That I'm better off just doing without  
Oh, it's a real cold shot, yeah, it's a deadly curse  
That goes from a good love, to bad love, to heartache at its worse  
So tell Cupid not to point that thing at me  
I said, one more hole in my poor heart is just what I don't need  
Well, I've been teased by a fate, burned by a love and left by destiny  
So for my hearts sake tell Cupid, wait, don't point that thing at me  
Yeah, so for my hearts sake tell Cupid wait, don't point that thing at me
