

# Chemicals

## DIE PUPPE

All this wasted space  
This whole room it takes  
Hard to stay awake  
This is my escape  
If we feel it back up  
Amphetamine rush  
Set me on fire tonight, tonight  
It's getting critical, getting critical  
I gotta let it go, gotta let it go  
Your my chemical, your my chemical  
Killer, killer, killer, killer  
Stabs me in the back  
Takes me all I have

Wrestle to the floor  
See you soon for more  
If we feel it back up  
Amphetamine rush  
Set me on fire tonight, tonight  
It's getting critical, getting critical  
I gotta let it go, gotta let it go  
Your my chemical, your my chemical  
Killer, killer, killer, killer  
It's getting critical, getting critical  
I gotta let it go, gotta let it go  
Your my chemical, your my chemical  
Killer, killer, killer, killer
