

# Angel No

## Yello

I don't wanna be your angel  
I wanna be your witchI gotta wait 'til the sun is down  
I'm getting ready for another flight  
Only if you're ready and you're willing to drown  
You can be mine tonightI'm never ever gonna live reality  
In the daylight I'd never survive  
I could never be your angel  
Even if I triedI don't wanna be your angel  
I wanna be your witchI don't wanna be your angel  
I wanna be your witchI don't wanna be your angel  
I wanna be your witchI gotta wait 'til the sun is down  
I'm getting ready for another flight  
Only if you're ready and you're willing to drown  
You can be mine tonightI'm never ever gonna live reality  
In the daylight I'd never survive  
I could never be your angel  
Even if I tried
