Doom Song

Plasmatics

Sanctify this place, protect us from the evil
Behold the power of the night
Shine, that we may see the light
Curse the filthy hypocrites
Crawl into their beds at night
Ooze from slimy depths below
Scream into their frozen brainsWork thy wretched wrath
Remove all obstacles from our path
I command that these things
Of which I speak, will come to beBehold the power of the night
Shine, that we may see the light
Curse the filthy hypocrites
Crawl into their beds at night
Ooze from slimy depths below
Scream into their frozen brains
Behold the prince of darkness hereYou sealed your doom
Your time has come
Y H V H, so it is doneBehold the power of the night
Shine, that we may see the light
Curse the filthy hypocrites
Crawl into their beds at night
Ooze from slimy depths below
Scream into their frozen brains
Behold the prince of darkness hereYou sealed your doom
Your time has come
Y H V H, so it is doneBehold the power of the night
Shine, that we may see the light
Curse the filthy hypocrites
Crawl into their beds at night
Ooze from slimy depths below
Scream into their frozen brains
Behold the prince of darkness hereYou sealed your doom
Your time has come
Y H V H, so it is doneBehold the power of the night
Shine, that we may see the light
Curse the filthy hypocrites
Crawl into their beds at night
Ooze from slimy depths below
Scream into their frozen brains

Behold the prince of darkness hereYou sealed your doom
Your time has come
Y H V H, so it is doneBehold the power of the night
Shine, that we may see the light
Curse the filthy hypocrites
Crawl into their beds at night
Ooze from slimy depths below
Scream into their frozen brains
Behold the prince of darkness hereYou sealed your doom
Your time has come
Y H V H, so it is done, so it is done
