All Right

Room Eleven

So far I haven't found a way
To break her the news today
No matter how hard she cries
I tell her that everything's all right
And everything is all right
Mhm hm
I take her by the hand
And help her understand
That everything's all right.
Mhm hm
I told her she could stay the night
We were up till the morning light
And that's when I knew, my friend
That everything was all right
Yeah, well, everything was all right
Take me by the hand

And help me understand
That everything's all right
Mhm hm
I've told her a thousand times
And she's told me a thousand lies
No matter how hard I cry
I know that everything's all right
And everything is all right
Mhm hm
Take me by the hand
And help me understand
That everything's all right
Yeah
Mhm hm
Take me by the hand
I'll help you understand
That everything's all right
