

Scream

New Years Day

It's insatiable the worse I crave
This bed becomes my cage
I'm ready for what you give to me
If I let you get a taste It's insane
That I can't get you out of my head
So take me
Use my body for sin Bring me to bed but don't sleep
I wanna feel your sweat on my skin
Gimme the pressure you know i need
And if I'm tied up, you take the lead Tell me how you want me
I can be your little slave
I can make your dreams come
I can make your dreams come true
If you want me on my knees
Just beg me pretty please
I can make you scream so
I can make you scream so loud We both know you want control
To keep my mouth shut
So push me further than this
With stained red fingertips Obscene
You're under my spell
You're trapped inside
Save me by destroying me Bring me to bed but don't sleep
I wanna feel your sweat on my skin
Gimme the pressure you know i need
And if I'm tied up, you take the lead
Tell me how you want me
I can be your little slave
I can make your dreams come
I can make your dreams come true If you want me on my knees
Just beg me pretty please
I can make you scream so
I can make you scream so loud I know you want me
I know you need me
But I just wanna fuck
Passion drowns our ache for love
Maybe that's enough for us
Tell me how you want me
I can be your little slave

I can make your dreams come
I can make your dreams come true
If you want me on my knees
Just beg me pretty please
I can make you scream so
I can make you scream so loud
