That old moonlight won't add up right
That old moonlight won't add up right
That old moonlight won't add up right, ahWhat is this thing called love?
What is this thing called love?
What is this thing called love?
What is this thing called love?Something in my eye
Something in my eye
Something in my eye, eye, eye
Ooh, ooh, ooh, ooh
Ooh, ooh, ooh, ooh
Ooh, ooh, ooh, oohWhat is this thing above?
What is this thing above?
What is this thing above?
What is this thing above?
What is thing thing called love?
What is thing thing called love?Planetary action
Complex interaction
Chemical reaction
