

# 16 Dollars

## Volbeat

16 dollars in a back street corner is enough for a beautiful day  
I see a window open hearing Aerosmith rocking with  
Dick Brave "Walk This Way"  
I need a quick drink more volume for the beat  
I see the cats are playing dice

It's 7 in the morning and you lost all your money  
To a fat lady singing boogie woogie chili honey

I've been walking the streets again  
But it's the same old thing I'll do it again  
Just to see what the day will bring  
But it's the same old song I'll do it again

I'll bring you home my baby I will  
I would love to bring you home  
I would love to bring you home  
I would love to bring you home

16 hours on my back in a corner and an empty bottle of Jack and a bitch  
Well I'm sorry to inform you that the poison in my body guiding you  
To walk away from this mess  
I need a quick drink more volume for the beat  
I see the cats are playing dice

It's 7 in the morning and you lost all your money  
To a fat lady singing boogie woogie chili honey

I've been walking the streets again  
But it's the same old thing I'll do it again  
Just to see what the day will bring  
But it's the same old song I'll do it again

I'll bring you home my baby I will  
I would love to bring you home  
I would love to bring you home  
I would love to bring you home

16 dollars in a back street corner is enough for a beautiful day
