

This Is the Life

Living Colour

Eee, eee
Eee, eeeIn another life you might have been a genius
In another life you might have been a star
In another life your face might have been perfect
In another life you'd drive a better carIn another life all your jokes are funny
In another life your heart is free from fear
In another life you make a lot of money
In this other life everything is clearIn another life you're always the hero
In another life you always win the game
In another life no one ever cheats you
In another life you never have to changeIn another life your friends never desert you
In another life you never have to cry
In another life no one ever hurts you
In this other life your loved ones never dieBut this is the life you have
This is the life you have
This is the life you have
This is the lifeIn another life you're always the victim
In another life you're always the thief
In another life you're always lonely
In this other life there is no reliefIn your real life treat it like it's special
In your real life try to be more kind
In your real life think of those that love you
In this real life try to be less blindThis is the life you have
This is the life you have
This is the life you have
This is the life you have
Hee, hee, hee, hee
