

Lights On

Tyrese

So I'm on the phone wit this shorty right?
I'm like, baby we about to do this
So why you, why you want the lights on?
So you know, I figured out
(Shorty like it better with the lights on)
That she liked to watch what's goin' down
(Shorty like it better with the lights on)
So I was like aight, it's somethin' new but, I'm 'bout it, let's go

She got, she got the kind of love that make you wanna
Stand up in the club singin' 'Go shorty'
She got, she got the kinda of drop
Make a ***** go out and cop anything that she wanted

She got, she got the heat to light that ***** like fire
And if you need a hit, I dare you to trya, trya, trya
Baby girl'll get ya higher higher higher

She'll have ya feelin' like
'cause ain't nobody betta at workin' that thang down
And she'll work it out, don't turn the lights out, 'cause

Shorty like it better with the lights on
Shake a little harder with the lights on
And when she get to feelin' the groove then she get into you
Betcha she'll keep ya comin'

Shorty like it better with the lights on
Shake a little harder with the lights on
And when she get to feelin' the groove then she get into you
Betcha she'll keep ya comin'

She got, she got the kind of cut that'll keep ya messed up
And you fall up and then slip in
She got, she got the crazy butt that'll have you like what the *****
When they come up missin'

She got, she's got a grip and knows how to use it
And when she got you beat she ain't 'bout to lose it lose it lose it

'cause she knows how to move it, move it

I'm feelin' like
'cause ain't nobody betta at puttin' the thang down
So don't turn the lights out

Shorty like it better with the lights on
Shake a little harder with the lights on
And when she get to feelin' the groove then she get into you
Betcha she'll keep ya comin'

Shorty like it better with the lights on
Shake a little harder with the lights on
And when she get to feelin' the groove then she get into you
Betcha she'll keep ya comin'

It really don't take a long
You can stop it once you get it close
It's how you messed up in the back caught up
Trying to take a hold
Next thing you know you're trying to turn the lights out

It really don't take a long
You can stop it once you get it close
It's how you messed up in the back caught up
Trying to take a hold
Next thing you know you're trying to turn the lights out, lights out

Shorty like it better with the lights on
Shake a little harder with the lights on
And when she get to feelin' the groove then she get into you
Betcha she'll keep ya comin'

Shorty like it better with the lights on
Shake a little harder with the lights on
And when she get to feelin' the groove then she get into you
Betcha she'll keep ya comin'

Shorty like it better with the lights on
Shake a little harder with the lights on
And when she get to feelin' the groove then she get into you
Betcha she'll keep ya comin'

Shorty like it better with the lights on
Shake a little harder with the lights on
And when she get to feelin' the groove then she get into you

Betcha she'll keep ya comin'
