

# Party Foul

## Danger Radio

Sh'e staring at me  
I've got a terrible disease  
Taking a chance to make it  
Don't look, just keep cool 'cause  
I saw you standing over there  
You charismatic little dare  
And keep me company 'cause  
I know she's watching me  
But I don't think I'll take it

Shamelessly she walks to me  
And says to me and begs to me  
Carelessly so drawn to me  
So I say this time we're gonna get it right  
This time we're gonna dance all night

It's lookin' like  
There might be something here tonight  
But we keep it secret as we fall into pieces  
Baby you try so hard to get in touch with  
Keep staring and you can't function (keep lookin' around, lookin' around)  
Just let the music take control  
Don't fight these feelings  
We both know you're not that type  
We're at the club let's have some fun  
And if it ended in her one  
Well another day will come

Shamelessly she walks to me  
And says to me and begs to me  
Carelessly so drawn to me  
So I say this time we're gonnage tit right  
This time we're gonna dance all night  
Shamelessly she walks to me  
And says to me and begs to me  
Carelessly so drawn to me  
So I say this time we're gonna get it right  
This time we're gonna dance all night

(Shamelessly she walks to me)

(Shamelessly she walks to me)

(Shamelessly she walks to me)

Don't you know that we are the ones who keep this party going

Around until the morning

Don't look back it's alright

This is not a test

We are only getting started

Dancing around until the morning

Where's the party tonight

Tonight

---
