Thinking about the last time I laid with you

Drove me crazy out of my mind

I can't wait to lay with you

Like july the fourth explode in you

It drives me crazy out of my mind I'll be giving up this good thing

To my honey

I'll be giving up this good thing

To my honey, all my lovin It's the kind of love that makes you cry

It feels so good it makes you

Moan and sigh

It feels so good it makes you wanna say

Oh this love is good it hurts so good

It's so good, so good

Girl it's the kind of love that gets That gets so deep, and all you do is

Roll over and go to sleep

Come on in and close the door

I'll fill you up with love [chorus] I can't wait another minute

To get in you, after we make love

Roll over, and do it again and again

And again and do it again

Turn off the lights, unplug the phone

Turn off the t.v., lay on your back

Open your mind, baby receive me. [chorus] I'll be sexing you all night

I'll be sexing you all night
