Down To Go (Live at St. Pancras Church)

Phosphorescent

(Verse)
Leave another
How can you go on?
How cant you know
I mean bout now
Kids forever
And we go on
Aint we so
High and wild?(Chorus)
You said all
You spin your heartache indigo
And I suppose
It rips my heart out and you know
But if Im waking each morning baby
Aching an ordinary bit
Im vacant on the hill
Down to go(Verse)
The kiss of summer
But it only glows
And we both
Just wide and out
And he can just kill me
I dont know
But Ive been sure
Finding out(Chorus)
You said all
You spin your heartache indigo
And I suppose
It rips my heart out and you know
But if Im waking each morning baby
Aching an ordinary bit
Im faking and throwing off
Down to go(Verse)
Leave the city
Can we go on?
I cant withhold
I mean right now
I know its a pity
Its getting cold

Its getting old
Its holding me(Chorus)
You said all
You spin your heartache indigo
And I suppose
Aint got much choice now, do I go?
See I can wake every morning baby
Aching an ordinary bit
Im jaded and throwing off
Down to go
