

# Voice In The Dark

## Autopilot Off

If there's a light  
Leave it on  
If there's a way  
Some thing has taken your placeDown coming on  
Its getting late  
I hear my heart starting to breakAnd i'll wait for you  
Faith is just a promise  
I will make for you  
In places that are haunted  
Ill be thereI walked for miles on and on  
Searching in vain  
A voice in the dark  
Calling your name  
I Dreamt walls of fire rising up  
Stood in the way  
Tempered my soul walking through flamesAnd ill wait for you  
Faith is just a promise  
I will make for you  
In places that are haunted  
Ill be thereI've wanted to believe  
In more then I could say  
Each breath I take  
I'll live one way  
Waiting to come downIf there's a light  
Leave it on  
If there's a light  
Leave it on  
If there's a lightAnd ill wait for you  
Faith is just a promise  
I will make for youIn places that are haunted  
I will wait for you  
Faith is just a promise  
I will make your you  
And pain is always honest  
I will wait for you
