## Bear Girl

I've kept this holy ghost alive  
Now it's bleeding from my head  
I've tried so hard just to hear them speak  
    But i'm just not worthy yet  
    Suppress all you know  
    Don't let those demons showSage  
    You've got your hands around my neck  
    Keep faithI used to think - i used to feel  
        Following me  
        How could i ever be?  
    Insanity just breathing down the back of my neck  
        How did i ever sleep?  
    I know i've got to drink it slow  
        To feel my fleeting soulSage  
    You've got your hands around my neck  
        Keep faithAs my body starts to slow  
        I feel the ardor in my bones  
        And if i ever let you go  
The poison wouldn't take me homeMemories hold-  
    Will the ever go away?  
    Don't leave me alone  
Please just take the pain from meDon't leave me
