

# The River

## Wild Orchid

Moving on baby  
I went to the river, thinkin bout jumpin in  
Thinkin about your ways baby  
Trying to forget how to swim As I stood there, watching the train go by  
Oh what a message - that's when I realized Oh baby, is it gonna last very long  
Look at the river and how it keeps movin on  
Oh baby, what we had is almost gone  
Look at the river and how it keeps movin on Movin on  
Would you just look at the river  
Movin on My emotions move with the current and the wind  
No direction, and no definite end  
That's when I realized how the ripples in the water seemed to shine  
Reminds me of you and I baby, at one point in time And just like a river - like a river flowin - into a waterfall  
(Stef and Renee)  
After falling are we movin on - inside I feel - I can feel it flow Oh baby, is it gonna last very long  
Look at the river look at it how it keeps movin on and movin on  
Oh baby, what we had is almost gone  
Look at the river and how it keeps movin on Under the train bridge - it keeps movin on  
Goes round to the whirlpool - it keeps movin on  
No still waters baby, are gonna hold me down  
And all I wanna know is - are you comin with me I have got to keep moving on  
Moving on yeah  
Moving on I said  
Moving on Oh baby, is it gonna last very long  
Look at the river look at it how it keeps movin on and movin on  
Oh baby, what we had is almost gone  
Look at the river and how it keeps movin on Moving, moving  
Moving, moving  
Moving, moving  
Would you just look at the river Moving on  
Moving on I said Moving, moving  
Moving  
Moving, moving  
Baby  
Moving, moving  
Would you just look, look at the river Moving on  
Moving on I said
