Youth

Beach Fossils

It's not so worth getting all bent out of shape about
I turned my back on it and next you know it's all run out
Do you want to step outside, or do you want it right
I don't just what I feel, but I feel it all tonight

I give it all in these hours that we set aside
I know I'm feeling brief, but that's because my heart's untied
Don't want to trim anymore off of your only truth
We've got enough to spare 'cause we're awake throughout our youth
