Remembered

Firewind

All our fears are
Unprepared for chosen
Demons shed the past are hereThe push for revolution
Try and liberate my brain solution
I won't crawl for you again
I will never go and standDo the things you wanna do
And let your spirit guide you through
In a life worth being rememberedDon't look back, you won't regret
Forgive, forget and never hate
Isn't it hard, you want to be remembered
RememberedThrough the darkest days
Don't let it die
And keep me hereStay awake
Demons try to tear me down
Start the revelations
My barricades are made of steelDo the things you wanna do
And let your spirit guide you through
In a life worth being rememberedDon't look back, you won't regret
Forgive, forget and never hate
Isn't it hard, you want to be rememberedDo the things you wanna do
And let your spirit guide you through
In a life worth being rememberedDon't look back, you won't regret
Forgive, forget and never hate
Isn't it hard, you want to be rememberedDo the things you wanna do
And let your spirit guide you through
In a life worth being remembered
(In a life worth being remembered)Don't look back, you won't regret
Forgive, forget and never hate
Isn't it hard, you want to be remembered
Remembered
