Set the Mood

David Jordan

Oh yeah....
Set the mood set the groove,
set the atmosphere in which you move in,
Set the mood set the groove,
set the energyI'm watching her puff on her cigarette yeah,
Jack Daniels and soda ordered from the bar,
I grab a glimpse of any girls by my side
Slowly sipping down on her wine.Set the mood set the groove,
set the atmosphere in which you move in
Set the mood set the groove,
set the energy in which you step too
Set the mood set the groove,
set the atmosphere in which you move in
Set the mood set the groove,
set the energyThe way she walks a walk it threatens my eyes
It's the way she swings her hair in time in time to the music
Baby girl I give you all of my life
Slowly sipping down on her wine.Set the mood set the groove,
set the atmosphere in which you move in
Set the mood set the groove,
set the energy in which you step too
Set the mood set the groove,
set the atmosphere in which you move in
Set the mood set the groove,
set the energy in which you step tooPlaying my song on the piano
She leaves my side.
See the sun that she brings the birds starts to sing
To get you in the mood... yeahSet the mood set the groove,
set the atmosphere in which you move in
Set the mood set the groove,
set the energy in which you step too
Set the mood set the groove,
set the atmosphere in which you move in
Set the mood set the groove,
set the energy in which you step too
Set the mood set the groove,
set the atmosphere in which you move in
Set the mood set the groove,
set the energy in which you step tooYeah

Set the mood, set the groove,
Set the atmosphere in which you move in
Set the mood set the mood..
