Want You To Want Me

Anggun

I'm here give me a glance, been following you like a shadow
This is how I spent my time dreaming about our days tomorrow
Another day has gone bye another moon another sun
I can wait for you my love
Don't want to do any harm
Just trying to get to your attention
Sometimes I walk away coz I know that we can't ever be together
Sometimes I close my mind I can't keep this love for myself any longer
Somehow I have to find the right time to say that
I want you to want me, even in my dreams

I hope yo know who I am through all the letters I have sent you
I know I'm not the only one wanting and dreaming about you
Two different world between us, you're on the spotlights far from my touch
I can't wait here forever
For a sign from your eyes
The magic I wish I could have
Should've walk away coz I knew that we can't ever be together
Should've closed my mind should've known that this love can't go any further
Should've stopped myself from this dream
Coz live will never want you to want me
Even in my dreams
In my dreams
