

# You Heard Wrong

[Dylan Schneider](#)

Everytime im out on the town i bet your phones blowing up.

All your friends try to tell you that im hooking up.

Just cause i shot her a wink they get ya thinking that im over you but i aint over you.

Noo.

You cant believe every single word baby.

That dont mean i aint hurtin baby.

Truth is im pretty good at putting on a show.

Hanging and thinking aint no body gotta know that im wanting you, wanting you, wanting you.

Wishing that i was holding you, holding you, holding you.

Yeah im getting better at getting over us.

My heads a broken record and the needle gets stuck sometimes, if you heard im fine, since you been gone, gone,  
gone, yeah you heard wrong, wrong, wrong.

Everybody knows you and everybodys thinking that we had it all, till it all came crashing down at our feet.

Everytime i see you around i gotta act like im over you, but i aint over you.

Truth is im pretty good at putting on a show.

Hanging and thinking aint no body gotta know that im wanting you, wanting you, wanting you.

Wishing that i was holding you, holding you, holding you.

Yeah im getting better at getting over us.

My heads a broken record and the needle gets stuck sometimes, if you heard im fine, since you been gone, gone.

Girl, you heard wrong.

Girl, you heard wrong.

Yeah.

You heard wrong.

You cant believe every word baby.

That dont mean i aint hurtin baby.

You cant believe every word baby, that dont mean i aint hurting baby.

Truth is im pretty good at putting on a show.

Hanging and thinking aint no body gotta know that im wanting you, wanting you, wanting you.

Wishing that i was holding you, holding you, holding you.

Yeah im getting better at getting over us.

My heads a broken record and the needle gets stuck sometimes, if you heard im fine, since you been gone, gone.

Girl, you heard wrong.

Woah.

Girl, you heard wrong.
