Heather

Sense Field

I'd have to say you're a good friend
I know you'd never leave me here
In a town by the ocean
Shall we pass another year?You're so much more than a girlfriend
I know you'd never leave me here
In a town by the ocean
Shall we pass another year?This summer day is hot and long
This conversation will go on
Coffee and cigarettes are all we need
And a Chinese restaurant takes us onI'd have to say you're a good friend
I know you'd never leave me here by the ocean
You're so much more than a girlfriend
And that you trust me with visions of a worldWhere everyone makes sense to us
And it's so nice to know
I have an honest place to go with you
To find myself, to find the truthThe sun shines down into your yard
The outside world seems far away from here
Jesus is watching over everything inside young
And I've got a good idea what's to comeI'd have to say you're a good friend
You're so much more than a girlfriend
And that you trust me with visions of a world
Where everyone makes sense to us
And it's so nice to know thatI'd have to say you're a good friend
I know you'd never leave me here
In a town by the ocean
Shall we pass another year?You're so much more than a girlfriend
I know you'd never leave me here
In a town by the ocean
Shall we pass another year?
