

That Song Is Driving Me Crazy

Tom T. Hall

That song is driving me crazy, I gotta hear it again
First time I heard it I was with some friends
It's a simple little song you can sing along with an old time melody
So would you play that crazy little song again for me?
That song is driving me crazyI love that part about break my heart and baby please come home
And I love that line about hurtin' my mind and my beer ain't got no foam
That song is driving me crazyWell, you'll sing high and I'll sing low and everybody sing along
But everybody quit while I get my kick singin' bring that boogie home
Mhm, that song is a driving me crazy
Okay gang, well, that song is driving me crazy
That song is driving me crazy
