Closer to Me

Unk!

One look, one touch, no chance
I know what you're thinking
Your move, you're mixed up, no choice
Say you get the meaning
And I'm not leaving here without you, baby
I like everything I've seen
Tonight we're just a little bit close
Tonight it's just the way it's gonna be, yeah
Tonight I'm just a little bit closer
Tonight you're just a little bit closer to me
One day, one line untied
And we can talk it over
She's hooked, she's mine
I say stay a little longer
And I'm still waitin' on you, baby
And I've got anything you need
Tonight we're just a little bit close

Tonight it's just the way it's gonna be, yeah
Tonight I'm just a little bit closer
Tonight you're just a little bit closer to me
Don't say, ya' too shy, hand jive
Anyway you want it
I'm here, all right, up tight
Ain't no doubt about it
And I'm not leaving here without you, baby
I like everything I've seen
Tonight we're just a little bit close
Tonight it's just the way it's gonna be, yeah
Tonight I'm just a little bit closer
Tonight you're just a little bit closer to me
Tonight we're just a little bit close
Tonight it's just the way it's gonna be, yeah
Tonight I'm just a little bit closer
Tonight you're just a little bit closer to me
