# Are You Using Me?

## Luther Vandross

Wait a minute, let's try something different
This is Luther with the masters at work
Last night I had some trouble sleeping
Are you, are you, are you using me?
Are you, are you, are you using me?
Are you, are you, are you using me?
Are you, are you, are you using me?
No more will I let it be
You called his name out in your sleep
You're doing things so suspiciously
And I think that you're using me, yeah
Don't hang on me for security
Love is never free, are you using me?
Are you, are you, are you using me?
Are you, are you, are you using me?
Are you, are you, are you using me?
Are you, are you, are you using me?
You pretended like we were friends
I was blinded by sentiment
You complicated what love should be
And I could swear that you're using me
I keep seeing things I shouldn't see
I've been watchin' you, are you using me?
Are you, are you, are you using me?
Listen, talk to me, talk to me, talk to me
Ooh, come on now and talk to me, talk to me
Hey talk to me, talk to me, hey talk to me, talk to me
For my money, for my money
For my money, for my money
For my money, for my money, tell the truth
For my money, for my money
Are you, are you, are you using me?
Are you, are you, are you using me?
Are you, are you, are you using me?
Are you, are you, are you using me?
For my body, for my body
For my body, for my body
For my body, for my body
For my body, for my body

Don't hang on to me for security
Love is never free, tell me are you
Using, using me, using, are you using me
Using, using me, using, are you using me?
I keep seeing things I should not see
I've been watching you, are you using me?
One time, one time, one time, one time
One time, one time, one time, one time
One time, one time, one time, tell me
One time, one time, it's my desire, don't be such a liar
