

# Brought Back to Life

## Nekromantix

monuments are standing tall see them break watch them fall  
blinded by a promised word don't believe in what you've heard been asleep for a thousand years  
determination in his eyes swimming in the sea of tears he's brought back to life symbols from a long gone  
time don't be a fool oh no don't stand up in line redeem yourself and see it through  
there is no way out now it's up to you see him grow watch him rise it's about time you wake up and realize  
from beyond he emerges he's brought back to life  
you can call in your search
