

# Puppet

## Karmin

I just wanna get you near me  
Can't you see that you'll be in good hands  
I can lift you off of your feet  
I just wanna keep it rolling  
I'm not trying to be controlling You can play a part in my show  
Do some entertaining meet my needs  
Curtain closing making shadows  
Promise I'll be nice Geppetto  
Puppeteering in stilettos Don't you get the feeling that you're tangled up  
I can pull a string until it's good enough  
But don't you love it, love it  
When you're my puppet, puppet  
Don't you get the feeling that you're tangled up  
I can pull a string until it's good enough  
But don't you love it, love it  
When you're my puppet, puppet You know that I'm not here tell you  
All you can and cannot do  
But you make it way too easy  
I can get what I've been wanting  
Maintenance is almost nothing Don't gotta be so hard to handle  
Why you puttin' all the games on me  
No I don't wanna do it Rambo  
But you know I'll do whatever  
Cut you off the first offender Don't you get the feeling that you're tangled up  
I can pull a string until it's good enough  
But don't you love it, love it  
When you're my puppet, puppet  
Don't you get the feeling that you're tangled up  
I can pull a string until it's good enough  
But don't you love it, love it  
When you're my puppet, puppet Girl I wanna break free but I can't get out  
You know that you got me, you got me right now  
Girl I wanna break free but I can't get out  
You know that you got me, you got me right now Don't you get the feeling that you're tangled up  
I can pull a string until it's good enough  
But don't you love it, love it  
When you're my puppet, puppet  
Don't you get the feeling that you're tangled up  
I can pull a string until it's good enough

But don't you love it, love it  
When you're my puppet, puppet
