Nightmare (feat. Splitbreed & Autodrive)

Virtual Riot

I'm a nightmare, I'm right here
Like a park bench, don't sleep on me
Y'all never see dreams with your eyes closed
Y'all way too busy counting sheep homie
I'm on fire, on top
Bout to put the game on lock
Like Jordan Belfort with the penny stock
We ain't going nowhere, that's all rock
Splitbreed, we're flying
Disciple deciding
Let's get two psychos together
Start a virtual riot
I'm talking furnaces, burning buildingsLike fuck peace and quiet
Sparking the minds of a generation
Give me the fuse and I'll light itFuck peace and quiet
Fuck peace and quiet
Fuck peace and quiet
Fu-fu-fu-fuck peace and quiet
Fu-fu-fuâ€”
It's a fucking nightmare, you bitch
It's a fuckingâ€”I'll do it myselfâ€”bitchFuck peace and quiet
Fuck peace and quiet
Fuck peace and quiet
Fu-fu-fu-fuck peace and quiet
Fu-fu-fuâ€”
It's a fucking nightmare, you bitch
It's a fuckingâ€”I'll do it myselfâ€”bitch
