

# For Always

## Cyril Stapleton

I close my eyes  
And there in the shadows I see your light  
You come to me out of my dreams  
    Across the night  
    You take my hand  
Though you may be so many stars away  
I know that our spirits and souls are one  
We've circled the moon and we've touched the sun  
    So here we'll stay  
    For always  
    Forever  
    Beyond here and on to eternity  
    For always  
    Forever  
For us there's no time and no space  
    No barrier love won't erase  
    Wherever you go  
I still know in my heart you will be  
    With me  
    From this day on  
I'm certain that I'll never be alone

I know what my heart must have always known  
    That love has a power that's all it's own  
    And for always  
    Forever  
    Now we can fly  
    And for always  
    And always  
We will go on beyond, goodbye  
    For always  
    Forever  
    Beyond here and on to eternity  
    For always  
    And ever  
    You'll be a part of me  
    And for always  
    Forever  
A thousand tomorrows may cross the sky

And for always  
And always  
We will go on beyond, goodbye
