

Join the Professionals

The Epoxies

Call it call it up again
The commies are coming and I hear you say
Who cares who knows? Maybe I will one day Who knows what you're gonna say?
Not me
Who knows when your turn will be?
Not me Join the professionals
Be a professional
Join the professionals today A kick in the head every day for a year
Wouldn't even need me going there
Shock the heart secretly for me
Do they really have a say
What goes on with you each day? Who knows what you're gonna say?
Not me
Who knows when your turn will be?
Not me Join the professionals
Be a professional
You're gonna be one anyway Who knows what you're gonna say?
Not Me
Who knows when your turn will be?
Not me Join the professionals
Be a professional
Join the professionals today
