

My Passion

Planetshakers

I gaze into Your glorious light
I know You're with me day and night
And now I want to praise Your name
There's nothing else that I want more
Than just to look on You in awe
I sense Your spirit set to move
I know Your love it never ends
I know Your power gives me strength
I know somehow I'll never be the same
It's Your grace
That brought me freedom to praise
And glorify Your name
My passion is to worship You
It's Your love
A sacrifice to give eternal life
I praise You Lord
And glorify Your name
I gaze into Your glorious light
I know You're with me day and night
And now I want to praise Your name
There's nothing else that I want more
Than just to look on You in awe
I sense Your spirit set to move
I know Your love it never ends
I know Your power gives me strength
I know somehow I'll never be the same
It's Your grace
That brought me freedom to praise
And glorify Your name
My passion is to worship You
It's Your love
A sacrifice to give eternal life
I praise You Lord
And glorify Your name
It's Your grace
That brought me freedom to praise
And glorify Your name
My passion is to worship You
It's Your love
A sacrifice to give eternal life
I praise You Lord
And glorify Your name
Glorify Your name
Glorify Your name
