(Intro)
What if we only had one?
What if we only had one?(Verse 1)
If we never have one,
Imagine what it could have been.
What if I never put my hands on your body?
Would you love me still? (No)(Pre-Chorus)
But girl it's so good cause you're with me tonight.
You could be feeling yourself if ya drinking the life.
Now pour it from the top shelf if you're feeling alright,
But imagine what it could have been (been).(Chorus)
If we only had one night to live in this world
If we only had one thing to give and its love
What if we only had one?
What if we only had one?(Verse 2)
What if never had trust?
Imagine how the night would end.
What if you never took that chance with me baby,
How much we could have missed (yeah).(Pre-Chorus)
But girl it's so good cause you're with me tonight.
You could be feeling yourself if ya drinking the life.
Now pour it from the top shelf if you're feeling alright.
But imagine what it could have been.(Chorus)
