Little Boy

Kosheen

Settle down
And take the heat offYou're too busy spinning in your head
You surround me in circles
You're too eager to run furtherLittle boy
Just imagineAll the danger that lies ahead
You're a child, so pay attention
Pay attentionTake your time
It's the time of your life, take it slowTake it slow
And you'll know it's your time to grow
It's your time, it's your timeLittle boy
In the windowLooking over
A disasterIf you trip
Or you fall overYou cut you finger
You play with fireLittle boy
Just imagineAll the danger that lies ahead
You're a child, so pay attention
Pay attentionTake your time, it's the time of your life, take it slow
Take it slow
And you'll know it's your time to grow
It's your time, it's your timeTake your time
It's the time of your life, take it slowTake it slow
And you'll know it's your time to grow
It's your time, it's your time
