Intro

Dappy

And they dont know a thing about me,
They dont know a thing about me,
They dont know a thing about me,
cause they dont know a, they dont know a.
They dont know a thing about me,
Dont believe a word you hear about me
They dont know a, they dont know aThe ones who know you the least, are always the first to judge ya
But they dont know a thing about me,
Despite what they say, at the end of the day
What do you expect? we're only human.
Cant exactly stop them from assuming
Its time they learn a thing about me,
So heres the truth, this albums full of fire, fire.All that I can be, is brutally honest
And I dont wanna sing no more,
So Imma switch it in, five, four, three, two, one, off.I fail to say some shit and tie it on my skin
But when theres so much to address, tell me where the fuck do you begin
I think Ill start with my community,
When I see Cameron I should grab him by his neck and raise him up like a uni fee.
How can these greedy bastards put our taxes in their pockets?
Fuck an MP, to me that just stands for maximum profit.
ain't my fault, Im from a jungle where them animals love to smoke meth
Hit the can, chase the dragon and die of slow death.
This middle fingers to the system trying to hide the fact
That were poverty driven, I should take Boris on a road own test.
Take him to the track, stick him in a hat
Show him how to plant trees and cook crack, now that's a dope share.
That's why we hate court, but we love NFA
Im glad I smashed the paparazzis camera off the floor today
Thats rock star shit, they all know Im living a life,
But the money couldn't change me, thats why Im still on the hype.
Im just a man with a Visa, used to know Tulisa,
I dont know about fazer but I been banned from avida
I do my laundry in public, I tell the bus where to stuff it,
I can pull my own strings, go shove your dick up a Muppet.
The only time you ain't no hood is when youre wearing a jumper
Every man you see around me, been around me since we where younger
There the only ones who will call me when I didn't had nudda
so its only right I made there balance look like a phone number
Im the type to sacrifice getting richer, just to help a brother

And if I could Id kidnap every undercover
I still smoke cheese, get in beef, try me, Im a burger
fuck a rapper sent for me, Ill get the burner.Cuz they dont know a thing about me,
They dont know a thing about me,
They dont know a thing about me,
cause they dont know a, they dont know a.
They dont know a thing about me,
None of the words you hear about me
They dont know a, they dont know aThe ones who know you the least, are always the first to judge ya
But they dont know a thing about me(They don't know a thing)
Despite what they say at the end of the day,
what you expect? Were only human
Can't exactly stop them from assuming
Its time they learn a thing about me,
So heres the truth, this albums full of fire, fire.Now, thats just my intro.
